FY2025 Guidance & Outlook

Management has guided for revenue growth of 16–18% in FY2025, targeting INR 12,180–12,390 Crores. EBITDA margins are expected to expand further to 25.5–26.0% as the high-margin Cloud Services segment continues to outpace overall growth. Capital expenditure for FY2025 is budgeted at INR 1,200 Crores, primarily directed toward data center expansion and AI infrastructure.

Key risks include: (1) INR/USD currency volatility impacting export revenues, (2) potential slowdown in IT spending by BFSI clients, and (3) increased competition in the cloud segment from global hyperscalers. The company maintains a strong order book of INR 14,200 Crores as of March 2024, providing 16 months of revenue visibility.
